Students who are displeased with the results of their MegaMap test have an opportunity to retake the exam Tuesday, March 16 after school in Room 206. The student must be seated in the room by 3:55, and has until 4:45 to complete the exam.

The results of the higher score (between the two exams) will be recorded for the quarter.

However, students may not retake the exam if they already scored 125/125.

In the meanwhile, we're working our way through our textbook, a unit on North Africa, Southwestern Asia and Central Asia. In the coming weeks we'll complete the unit and take an exam over the material.
